# AUTODOSE SYSTEM

## Cleopatra Autodose – Elevate Every Sauna Experience

Upgrade your sauna ritual with the Cleopatra Autodose and leave the bucket and ladle behind. This premium automatic water dispenser transforms traditional infusions into a seamless, luxury experience. With the simple touch of a button, water – with or without fragrance – is gently released onto the hot stones, creating the perfect burst of steam and aroma.

Designed for spas and high-end wellness facilities, Autodose delivers consistently balanced humidity and effortless infusion control. The automated dosing system ensures safe operation at all times, minimizing the risk of splashing or overpouring. Compared to manual pouring, it distributes water more efficiently and evenly, reducing waste while maximizing steam performance and fragrance diffusion.

Choose fully automatic operation with preset intervals or activate it manually whenever the moment calls for it. Every session becomes perfectly timed, perfectly dosed, and perfectly relaxing.

Beyond performance, the Autodose is a true showpiece. Its innovative design and smooth operation regularly spark a “Wow” from guests, adding a touch of exclusivity to any sauna environment.

The system includes a nozzle for connection to a water pipe.
