SPA GLOBE

The Cleopatra Spa Globe is an exclusively designed piece that seamlessly combines ambiance, functionality, and durability. Thanks to the integrated RGBWW LED lighting, you can easily create the desired ambiance, from warm and soothing tones to bright white or dynamic color accents. This makes the Globe a stylish focal point in any wellness space.

Thanks to the use of high-quality materials, the Cleopatra Globe is suitable for use in warm, cold, and humid environments. This makes it perfect for use in saunas, steam rooms, wellness centers, hotels, spas, and luxury outdoor spaces, among other locations.

The Globe is available in two high-quality finishes:

- High-gloss polished stainless steel for a modern and luxurious look.
- Ceramic for an elegant, timeless finish with a refined character.

Both versions come standard with a universal mounting kit, allowing the Globe to be installed easily and securely on virtually any surface.

For maximum design flexibility, the LED driver and controls are supplied separately, so they can be discreetly placed outside the room or in a utility room. This results in a clean finish, optimal accessibility for maintenance, and reliable operation, even under the most demanding conditions.
