Emergency & Panic Button – Safety at Your Fingertips

Safety is essential in every professional wellness environment. The Emergency & Panic Button allows guests to immediately raise the alarm in the event of an accident, technical problem, panic situation, or unwanted intimacy.

The robust push button can be installed in locations such as a sauna, steam room, or other wellness area. Upon activation, the wellness system can be shut down immediately, and an alert is sent to, for example, the front desk and/or technical support, enabling a quick and appropriate response.

The push button features a high-quality chrome-plated brass housing, designed to complement a luxurious wellness interior. The accompanying electronics can be installed remotely, outside the wellness area.

Safe, discreet, and immediately accessible when every second counts.

Cleopatra offers the perfect wellness experience for individual spaces. Smart solutions for a range of unforgettable moments of personal well-being and relaxation.
