SPA OVERFLOW BATHS

Experience ultimate luxury with our exclusive spa tubs featuring an overflow channel—the perfect place to soak, relax, and enjoy a wonderful massage.

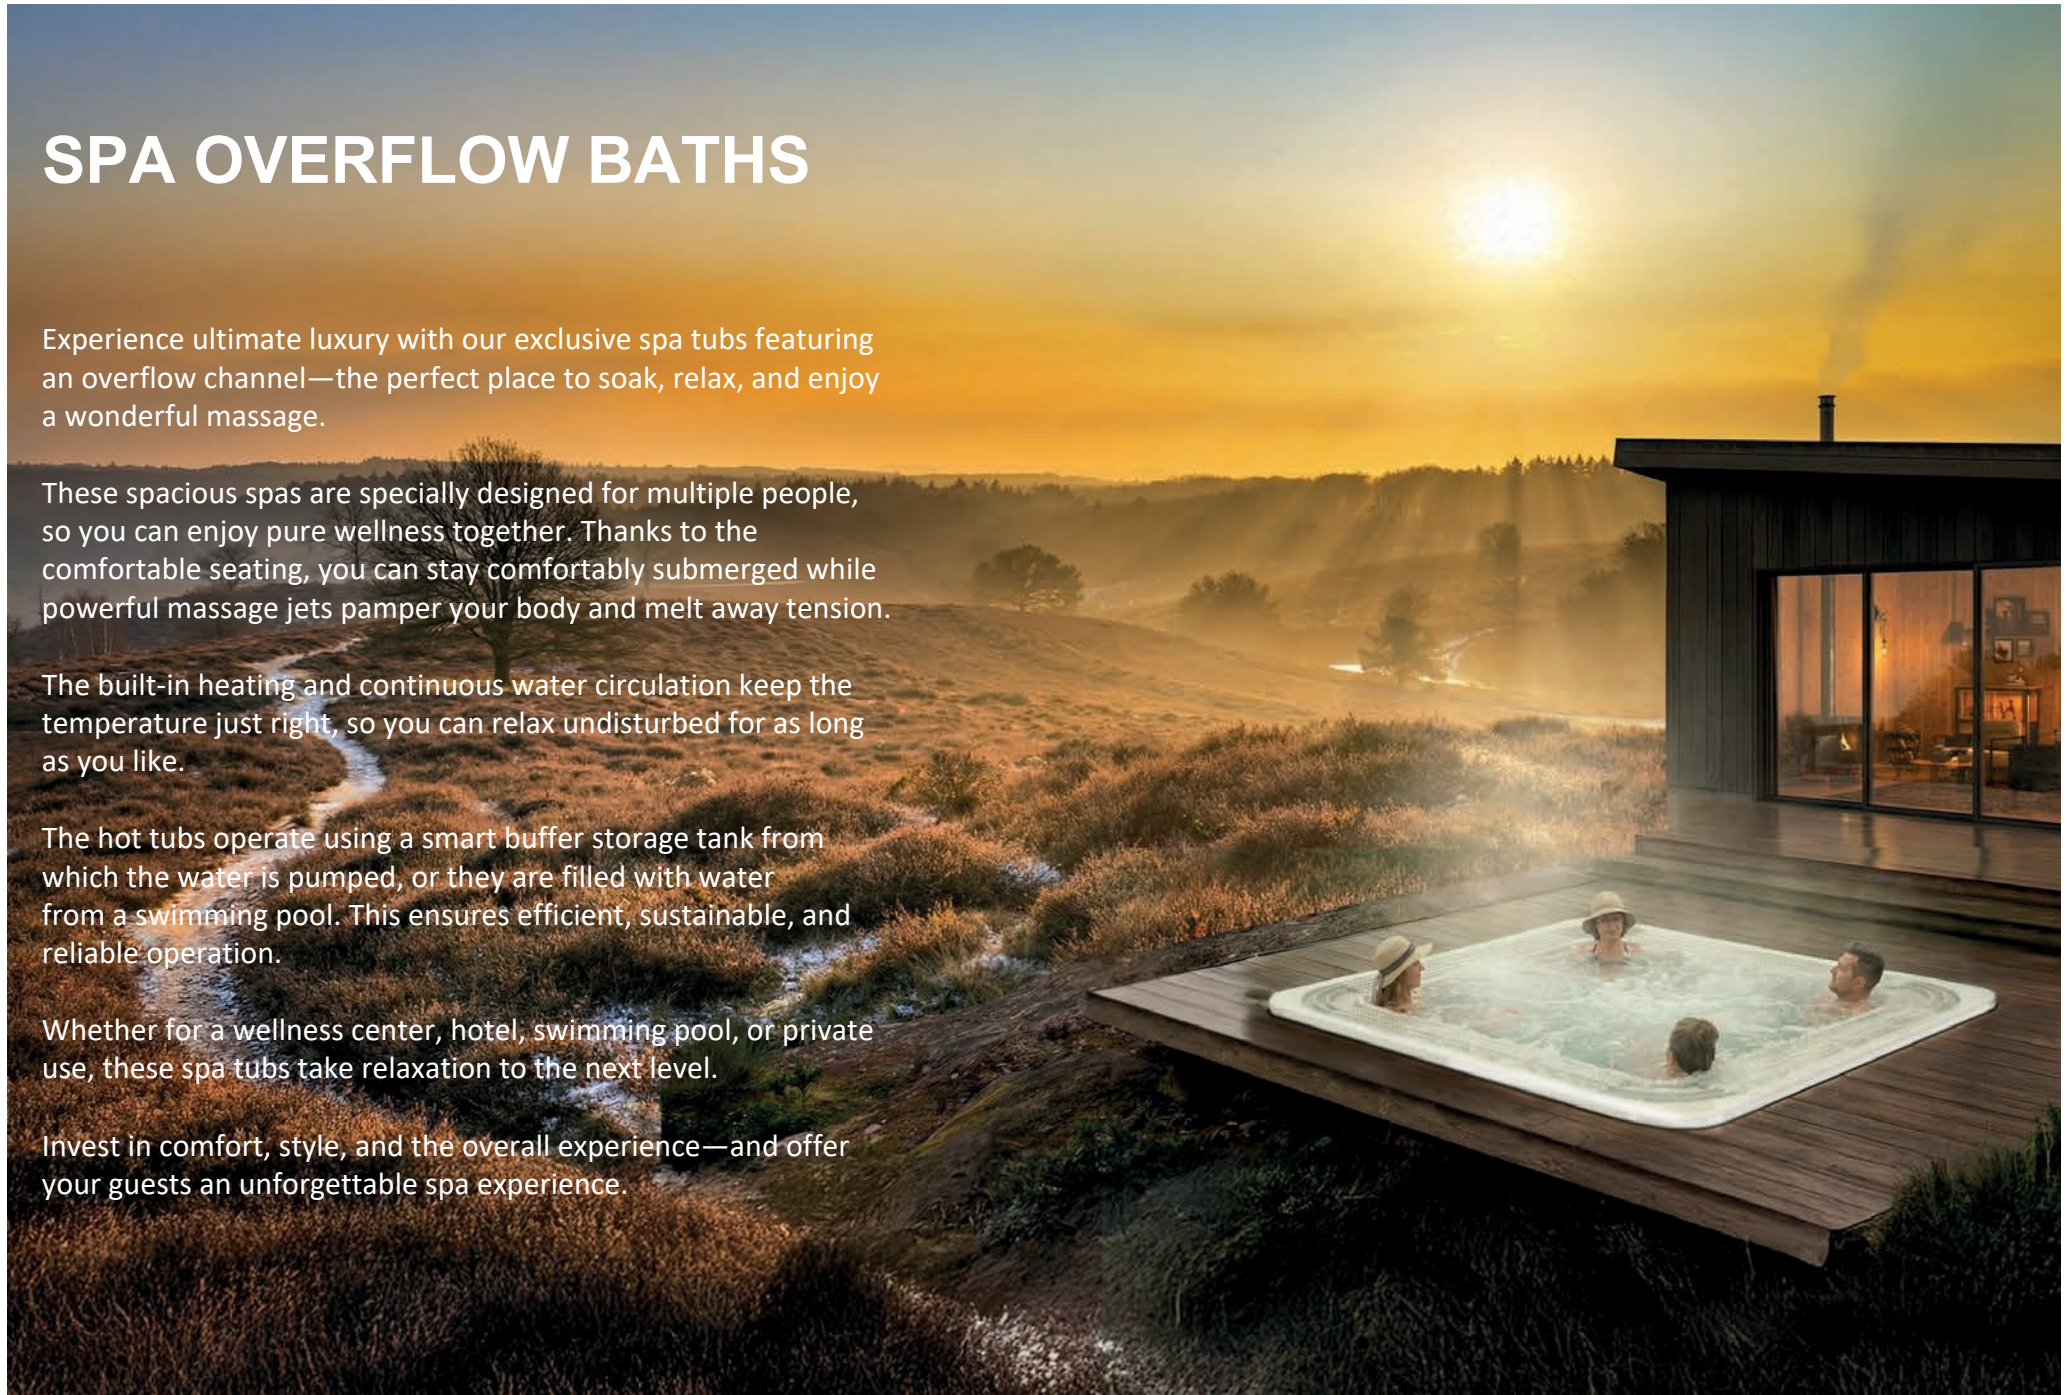

These spacious spas are specially designed for multiple people, so you can enjoy pure wellness together. Thanks to the comfortable seating, you can stay comfortably submerged while powerful massage jets pamper your body and melt away tension.

The built-in heating and continuous water circulation keep the temperature just right, so you can relax undisturbed for as long as you like.

The hot tubs operate using a smart buffer storage tank from which the water is pumped, or they are filled with water from a swimming pool. This ensures efficient, sustainable, and reliable operation.

Whether for a wellness center, hotel, swimming pool, or private use, these spa tubs take relaxation to the next level.

Invest in comfort, style, and the overall experience—and offer your guests an unforgettable spa experience.

Spa 365

SPA R- 230

This round tub, with a diameter of 230 cm, is designed for optimal comfort and relaxation and comfortably accommodates four people. Thanks to its generous size, the tub is ideal for both private use and wellness environments where luxury and the overall experience take center stage.

The tub is equipped with an overflow channel, allowing water to flow continuously and evenly over the tub's rim. This overflow system not only creates a sleek and exclusive look but also actively contributes to hygiene: dirt and impurities are immediately drained away, keeping the water and the tub clean for the long term.

For added relaxation, the tub can be equipped with a whirlpool system consisting of air bubbles and powerful water massage jets. Combined with underwater lighting, this creates a soothing atmosphere, while the heating system ensures the water always remains at a pleasant temperature, regardless of the season.

The water is supplied from a buffer tank, where it is continuously filtered and automatically maintained at the correct pH and chlorine levels. This not only guarantees clear and clean water but also a safe and comfortable bathing experience.

In short, this round overflow tub combines luxury, technology, and ease of use in a single, high-quality wellness product that invites you to experience pure relaxation.

SPA R- 250

This round tub, with a generous diameter of 250 cm, comfortably accommodates five people and makes a luxurious addition to any wellness or outdoor space. Thanks to the overflow channel, the water flows continuously and evenly over the edge of the tub. This not only creates a sleek and elegant appearance but also contributes to optimal hygiene: debris is immediately drained away, keeping the water and the tub itself clean and fresh.

The tub can be equipped with a comprehensive whirlpool system, including air bubbles and a powerful water massage, for ultimate relaxation. Additionally, options such as underwater lighting and heating are available, ensuring the tub can be enjoyed comfortably both during the day and in the evening, and in every season.

The water is supplied from a buffer tank, where it is continuously filtered and carefully adjusted to the correct pH and chlorine levels. This guarantees clear, clean, and safe water with minimal maintenance. The result is a high-quality, comfortable, and durable tub that perfectly combines luxury and ease of use.

SPA R- 300

This round spa, with a diameter of 300 cm, is designed for ultimate comfort and luxurious relaxation. Thanks to its generous dimensions, the spa can accommodate up to 6 people, making it ideal for shared enjoyment in a wellness setting, whether private or professional.

The tub is equipped with an overflow channel, allowing water to flow continuously and evenly over the tub's rim. This overflow system not only creates a sleek and luxurious appearance but also actively contributes to clean and hygienic water quality: debris is immediately drained away, and the water level remains perfectly balanced at all times.

For added comfort, the tub can be equipped with a comprehensive whirlpool system, including air bubbles and a powerful water massage. Combined with underwater lighting, this creates an atmospheric experience, both during the day and in the evening. The integrated heating system ensures that the water always remains at the desired temperature, allowing for relaxation in every season.

The water is supplied from a separate buffer tank, where it is continuously filtered and automatically maintained at the correct pH and chlorine levels. This not only guarantees clear and clean water but also a comfortable and safe bathing experience with minimal maintenance.

In short, this round overflow tub combines luxury, technology, and comfort into a high-quality wellness solution that invites you to relax, enjoy, and spend time together.

SPA S- 227

This spacious 227-cm square tub is designed for pure relaxation and comfortably accommodates four people. Thanks to its sleek design and high-quality finish, the tub is a stylish focal point in any wellness space.

The tub is equipped with an overflow channel, allowing the water to flow continuously and evenly over the tub's edge. This not only creates a soothing visual effect but also keeps the water and the tub consistently clean. The overflowing water is collected in a buffer tank, where it is carefully filtered and automatically maintained at the correct pH and chlorine levels. This ensures you always enjoy fresh, hygienic, and safe bathwater.

For added luxury, the tub can be equipped with a whirlpool system featuring both air bubbles and a powerful water massage. Combined with underwater lighting, this creates a cozy, relaxing atmosphere. The integrated heating system keeps the water at a pleasant temperature, so you can enjoy your bath undisturbed for as long as you like.

In short: this square tub combines comfort, design, and technology into a complete wellness experience for home or professional use.

SPA O- 365

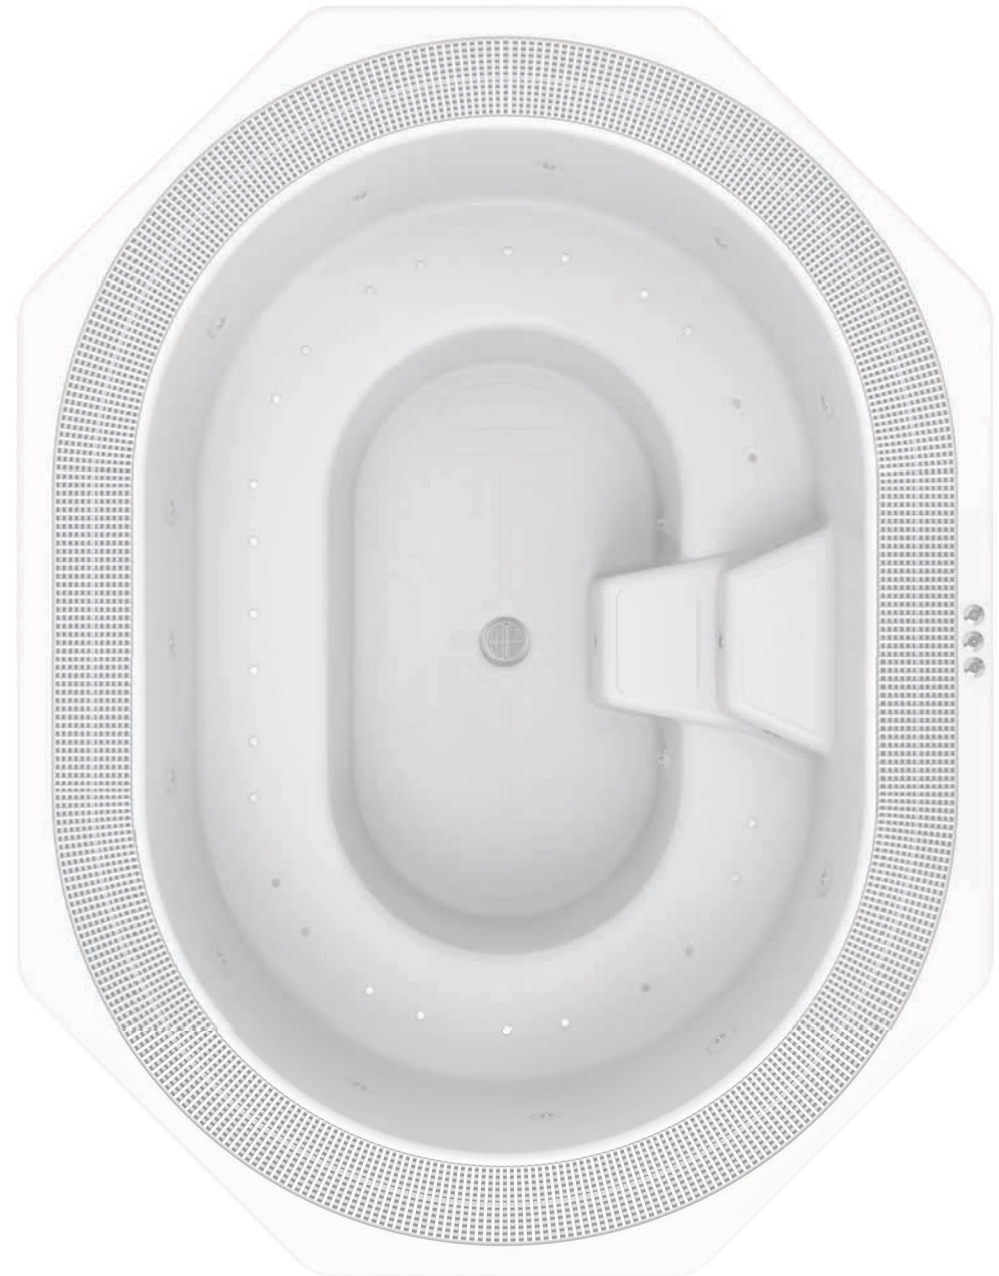

This spacious octagonal tub, with a diameter of 365 cm, is designed for comfortable use by up to 8 people. Thanks to its generous dimensions and ergonomic shape, the tub offers plenty of relaxation and freedom of movement, whether in a private setting or a professional wellness environment.

The tub is equipped with an overflow channel, allowing water to flow continuously over the tub's edge. This overflow system not only creates a sleek and luxurious appearance but also actively contributes to hygiene: dirt and impurities are immediately drained away, keeping the water and the tub consistently clean.

For added comfort, the tub can be equipped with a comprehensive whirlpool system, including air bubbles and a powerful water massage. Additionally, underwater lighting and heating are available options, allowing the tub to be used year-round and creating a relaxing atmosphere both during the day and in the evening.

The water is supplied from a buffer tank, where it is carefully filtered and automatically maintained at the correct pH and chlorine levels. This ensures consistent water quality and a safe, pleasant bathing experience for all users.

In short, this octagonal tub combines luxury, comfort, and ease of use with a professional water management system, making it ideal for anyone seeking a high-quality wellness solution.

SPA S SYSTEMS

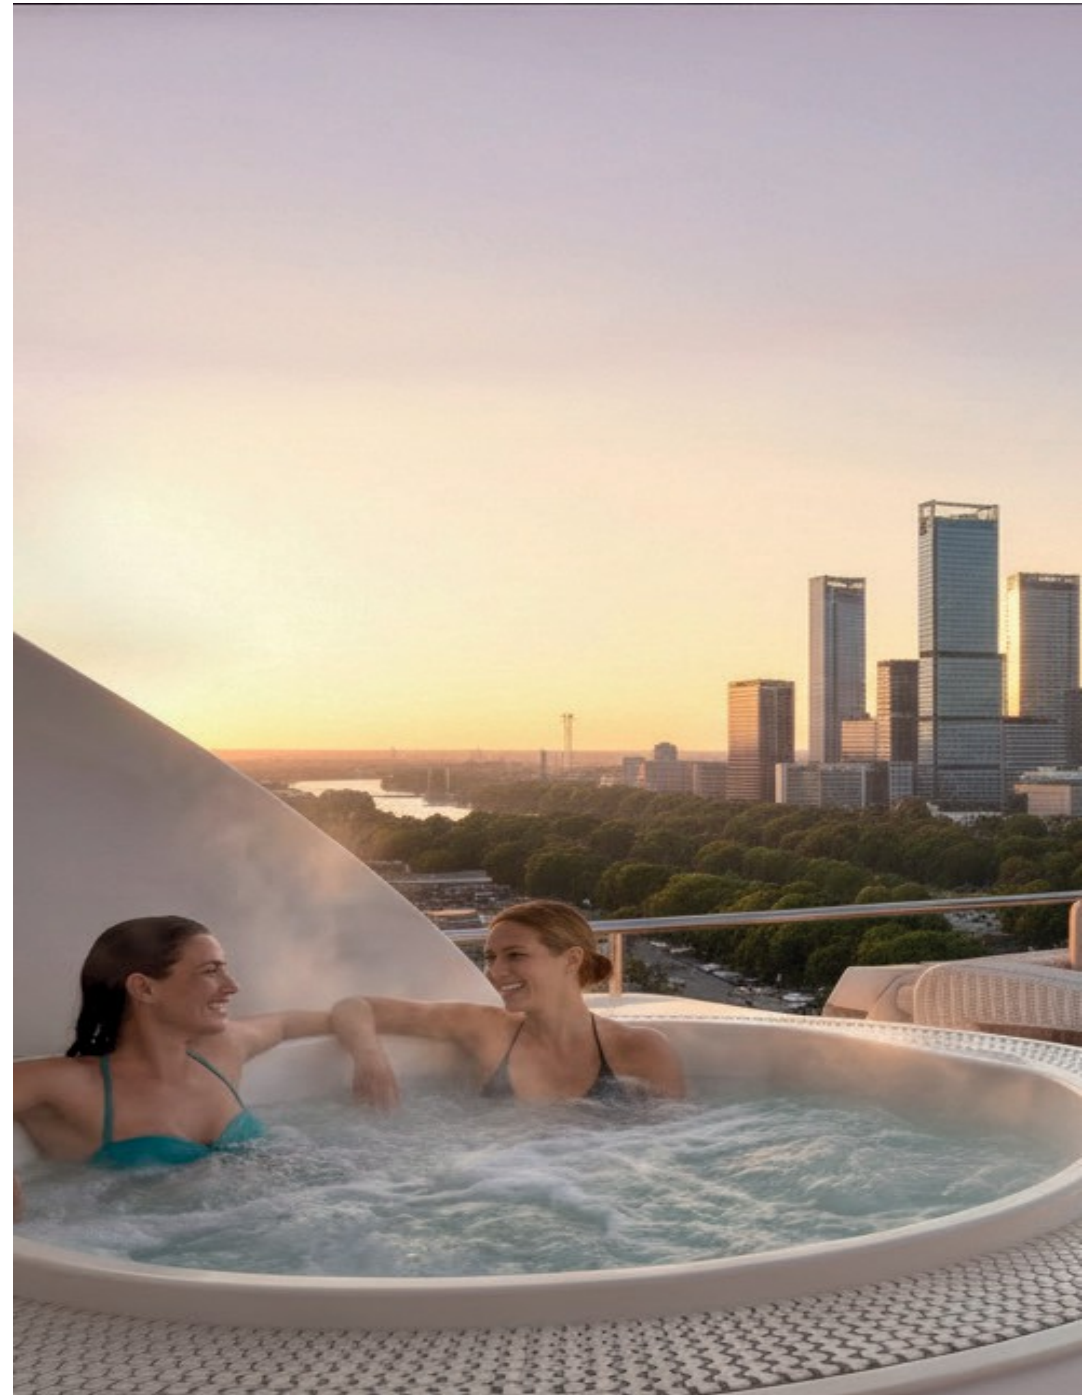

Cleopatra's spa systems are synonymous with innovation, quality, and pure relaxation. Thanks to the use of powerful jets combined with an active Venturi effect, these systems deliver an intense and perfectly balanced spa experience.

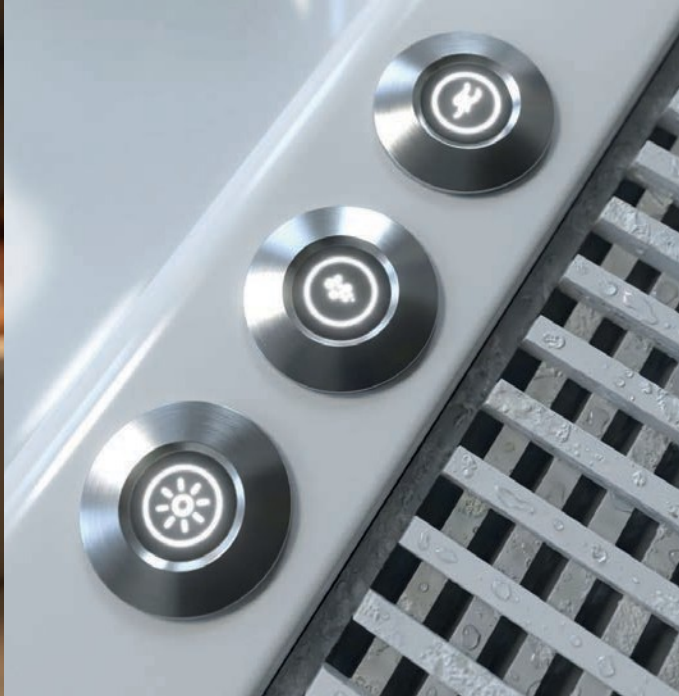

Cleopatra has been developing whirlpool systems for nearly 60 years, making it one of the pioneers of spa technology in Europe. This decades-long expertise translates into reliable, high-quality systems that meet the highest standards of comfort and durability.

Whether you prefer a gentle bubble bath experience or a powerful water massage that deeply relaxes your body and muscles, Cleopatra offers the right system for every preference. The experience is rounded out with underwater lighting, heating, and a selection of delightful spa scents that stimulate all the senses.

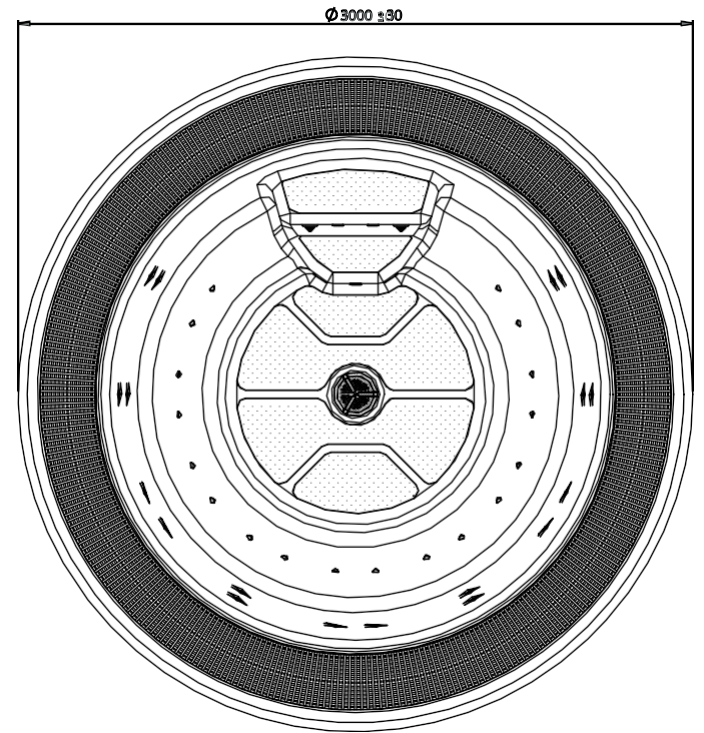

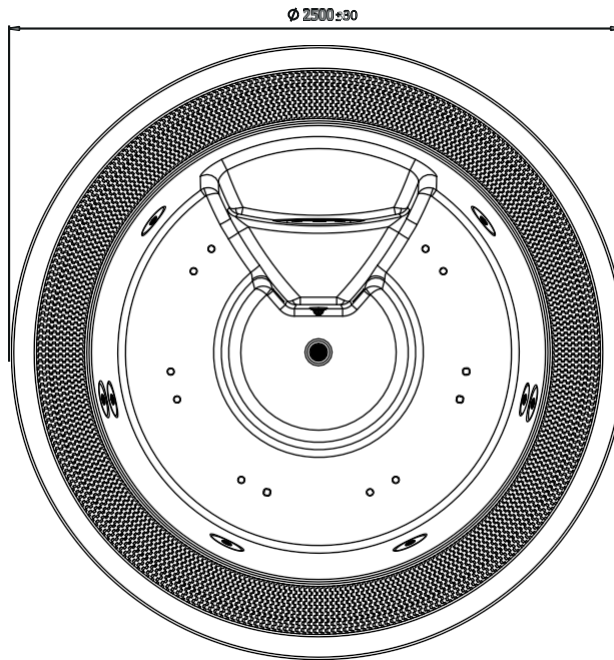

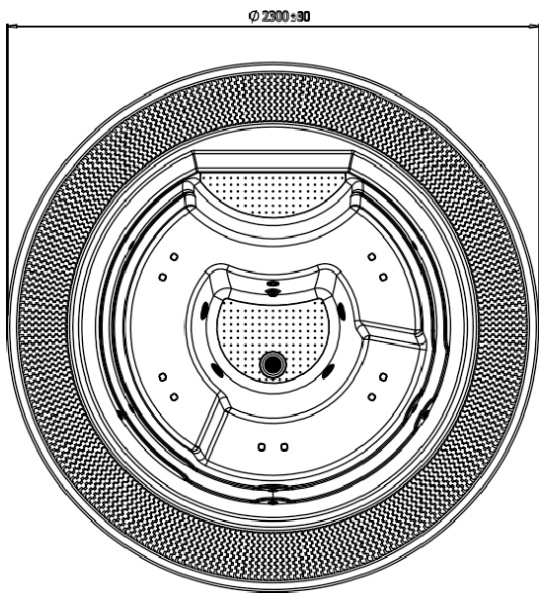

The controls consist of a sturdy round control knob that can be seamlessly built into the tub or the wall. This ensures user-friendly operation and a sleek, professional finish.

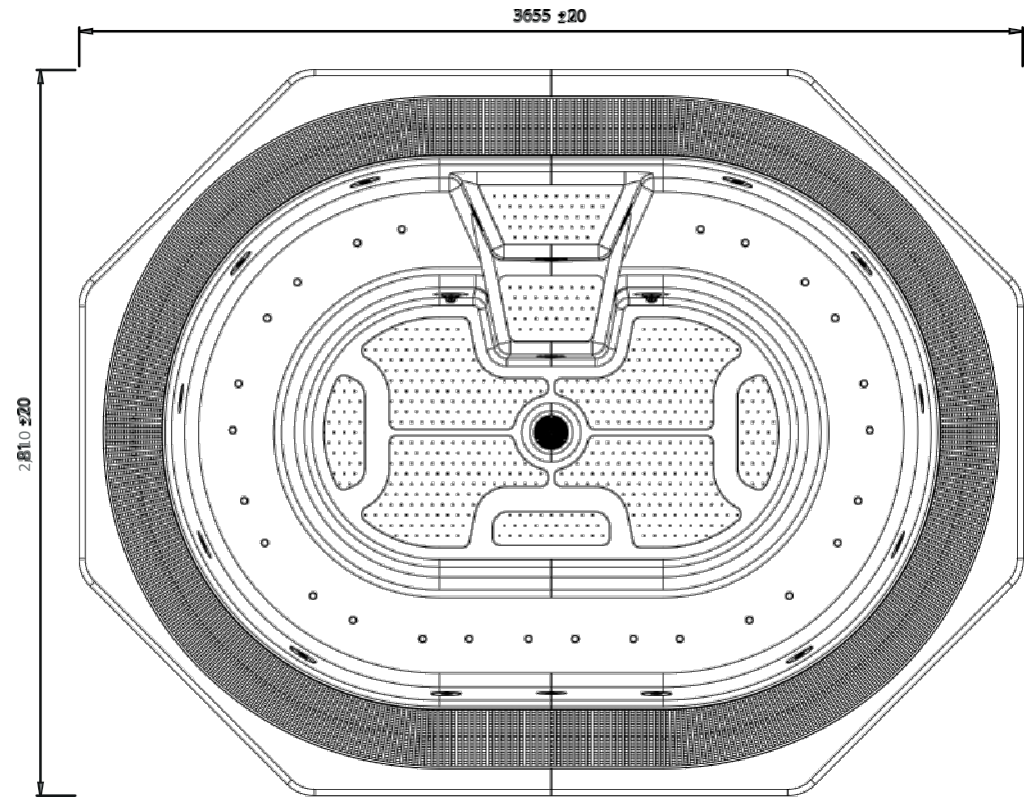

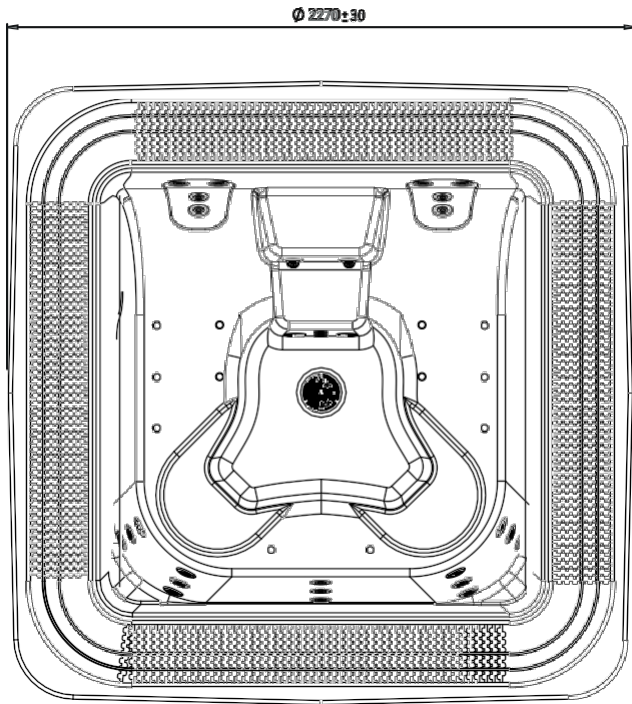

With Cleopatra, you're choosing a spa solution that combines craftsmanship, innovation, and luxury—a wellness experience you can feel, see, and enjoy.

DIMENSIONS

SPA TECHNOLOGY

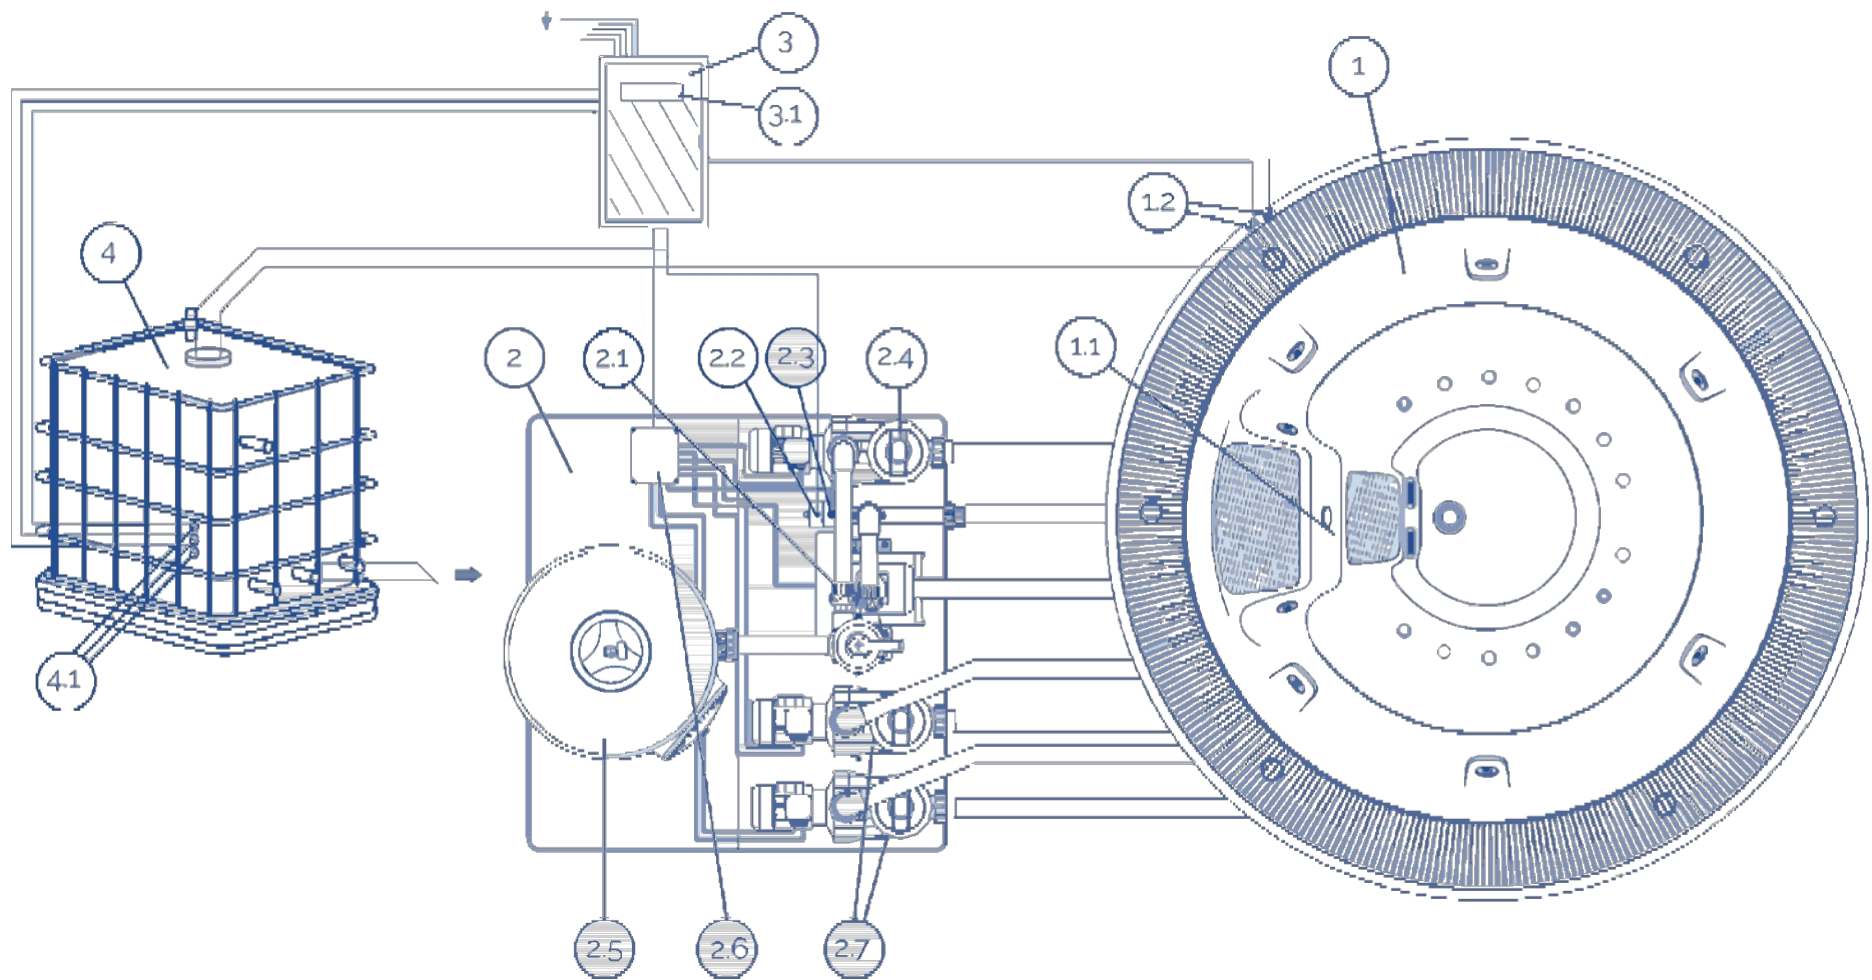

An underwater photograph of a spa. Several jets are visible, each spraying a column of water upwards. The water is clear and blue, with light filtering through from above, creating a bright, airy atmosphere. The jets are arranged in a row, and the water they spray is captured in mid-air, creating a sense of movement and energy.

At first glance, the spa technology behind an overflow tub may seem complex. In practice, however, the system actually ensures very stable and hygienic water quality. Because the water continuously overflows and circulates, it is regularly filtered, treated with the appropriate sanitizer, and reheated to the correct temperature.

For a properly functioning overflow system, it is important that sufficient technical space is available. The installation requires a carefully designed technical setup in which all components can work together optimally.

The technology and dimensions of the buffer tank depend heavily on the application and the size of the tub. Each overflow tub therefore requires a custom solution, tailored to usage intensity, capacity, and comfort preferences. This ensures reliable operation and a long-lasting, worry-free spa experience.

We're happy to help you find the best solution.

Cleopatra offers the perfect wellness experience for individual spaces. Smart solutions for a range of unforgettable moments of personal well-being and relaxation.

Cleopatra

Since 1966, Cleopatra has been the Dutch manufacturer of luxury, high-quality wellness products. Our product range includes steam/shower cabins, custom steam solutions, bathtubs, whirlpools, saunas, infrared cabins, and spas. We serve both consumers and the professional market. Water is Cleopatra's primary source of inspiration, with the consumer's need for relaxation as our top priority. To ensure quality, all our products are manufactured in-house by skilled craftsmen. In addition, we subject all manufactured products to comprehensive and thorough quality testing. With our passion for the product and our many years of experience, we guarantee the highest quality and durability of all Cleopatra products.

Showroom

To get a good impression of our products, we highly recommend visiting our showroom and Wellness Experience Center in Zaandam. The vast majority of our product range is clearly displayed here for you to explore. Our experienced staff will be happy to welcome you and offer advice.

Wellness Experience Center

Try out wellness products for the bathroom for yourself. Shower, steam, sauna, infrared, or bath—it doesn't matter. Experience the sensation of bubbling water, the beauty of the flowing design, the invigorating scents of the steam cabin, and the massaging power of the latest whirlpool system.

Personalized Advice

To ensure you receive the best advice, we also offer the option of having a Cleopatra wellness consultant visit your home to explore the possibilities for the ideal design of your wellness space. Please contact our office staff to schedule a consultation.
